The Canadian Copyright Act is a federal law which protects intellectual property.

In 1993, Alberta's Minister of Education signed a Provincial Print License with the Canadian Reprography Collective which allows the teachers of participating school authorities and private schools to make class sets of certain materials only, in accordance with the License. If your school is part of the License, there will be a green and red poster and an Exclusions List over every photocopy machine. The terms of the License must be followed. For more information about CanCopy, visit their website at www.cancopy.com.

The License only covers print materials. Always check the copyright page at the front of a document to see whether the rights are reserved or permission to copy has been given.

Distance Learning materials have all rights reserved and therefore cannot be copied.

Any copying of computer programs must be done in accordance with the terms of the license covering that program.

Audio-visual materials being shown in a school must have a public performance license attached to the film or the school must be covered by a site license. For "Home Use Only" videos cannot be used in a school unless there is a public performance site license.

LANGUAGE ARTS

NOTE: Student and teacher resources for English Language Arts K-9 that were reviewed through the Western Canadian Protocol project and have received authorized status for Alberta are incorporated into this listing. The complete listing of resources approved through this review should be authorized by June 2000. The list is available on the Alberta Learning web site at <http://ednet.edc.gov.ab.ca>. It is recommended that new resources be reviewed for gradual phase-in, according to need, community appropriateness and available budget.

Alberta Learning strongly recommends that teachers read all selections in the student texts and all activities in the teacher guides prior to using them with students. Careful consideration should be given to the sensitivities of both the student audience and the community.

LANGUAGE ARTS

Grade: 1

Note: Student and teacher resources for English Language Arts K-9 that were reviewed through the Western Canadian Protocol project and have received authorized status for Alberta are incorporated into this listing. The complete listing of resources approved through this review should be authorized by June 2000. The list is available on the Alberta Learning web site at <http://ednet.edc.gov.ab.ca>. It is recommended that new resources be reviewed for gradual phase-in, according to need, community appropriateness and available budget.

Alberta Learning strongly recommends that teachers read all selections in the student texts and all activities in the teacher guides prior to using them with students. Careful consideration should be given to the sensitivities of both the student audience and the community.

Note: Student and teacher resources for English Language Arts K-9 that were reviewed through the Western Canadian Protocol project and have received authorized status for Alberta are incorporated into this listing. The complete listing of resources approved through this review should be authorized by June 2000. The list is available on the Alberta Learning web site at <http://ednet.edc.gov.ab.ca>. It is recommended that new resources be reviewed for gradual phase-in, according to need, community appropriateness and available budget.

Alberta Learning strongly recommends that teachers read all selections in the student texts and all activities in the teacher guides prior to using them with students. Careful consideration should be given to the sensitivities of both the student audience and the community.

Note: Student and teacher resources for English Language Arts K-9 that were reviewed through the Western Canadian Protocol project and have received authorized status for Alberta are incorporated into this listing. The complete listing of resources approved through this review should be authorized by June 2000. The list is available on the Alberta Learning web site at http://ednet.edc.gov.ab.ca. It is recommended that new resources be reviewed for gradual phase-in, according to need, community appropriateness and available budget.						
Alberta Learning strongly recommends that teachers read all selections in the student texts and all activities in the teacher guides prior to using them with students. Careful consideration should be given to the sensitivities of both the student audience and the community.

Note: Student and teacher resources for English Language Arts K-9 that were reviewed through the Western Canadian Protocol project and have received authorized status for Alberta are incorporated into this listing. The complete listing of resources approved through this review should be authorized by June 2000. The list is available on the Alberta Learning web site at http://ednet.edc.gov.ab.ca. It is recommended that new resources be reviewed for gradual phase-in, according to need, community appropriateness and available budget.					
Alberta Learning strongly recommends that teachers read all selections in the student texts and all activities in the teacher guides prior to using them with students. Careful consideration should be given to the sensitivities of both the student audience and the community.

Note: Student and teacher resources for English Language Arts K-9 that were reviewed through the Western Canadian Protocol project and have received authorized status for Alberta are incorporated into this listing. The complete listing of resources approved through this review should be authorized by June 2000. The list is available on the Alberta Learning web site at http://ednet.edc.gov.ab.ca . It is recommended that new resources be reviewed for gradual phase-in, according to need, community appropriateness and available budget.					
Alberta Learning strongly recommends that teachers read all selections in the student texts and all activities in the teacher guides prior to using them with students. Careful consideration should be given to the sensitivities of both the student audience and the community.

Order Turnaround
Time

LRDC attempts to ship customer orders within 4 work days of receipt. During peak season (August – October), our order filling time may be 5-8 work days, depending on volume and stock availability.

h) MINIMIZING BACKORDERS

Backorders

To minimize backorders – we encourage you to place your order well before the time required, especially prior to your September school opening and semester changes. The major benefits of ordering early are:

- Advance knowledge of product demand enables the LRDC to work with publishers to keep stock available and initiate any product reprints earlier.
- Student learning time increases by improving learning resource availability to teachers and students.

i) TERMS OF PAYMENT

Terms of Payment

Terms are net 30 days for LRDC Charge Account customers. Credit terms and accounts may be made available upon application. Non-account orders will be accepted on a prepaid basis by credit card (Visa/Mastercard), cheque or money-order.

j) SHIPPING/HANDLING CHARGES

Shipping & Handling

Within Alberta, LRDC pays and determines the most efficient, cost effective shipping method at "no extra" charge. Additional shipping and handling charges are applicable to customer "specified" delivery instructions and all non-Alberta destinations.

k) **ORDER INSPECTION GUIDELINES**

Carefully check your shipment immediately upon receipt of order and the accompanying pick/pack slip (PPS). **Ensure order has been filled properly before stamping or marking, as marked resources are non-returnable.** Immediately report any discrepancies to LRDC Customer Service as claims reported after 14 days may be denied.

l) **RETURNS AND REPLACEMENT POLICY AND GUIDELINES**

- Damaged or defective resources will be replaced upon notification.
- LRDC will accept "surplus" or "incorrectly ordered" stock, within 60 days of invoice date, **only** if:
 - the product is in new, resaleable condition (not stamped as well);
 - the product is still authorized;
 - LRDC is not overstocked; or product was not "marked-down";
 - the product was not "specifically ordered" through confirmed customer request or listed as "order-on-demand" product; or
 - we are able to obtain a return privilege from the publisher.

A finance and restocking fee (FNRS) up to 15% of the total return price is applied to "surplus" or "incorrectly ordered" learning resource returns (refer to table below).

FINANCE AND RESTOCKING CHARGES ON RETURNS OF SURPLUS/INCORRECTLY ORDERED STOCK		
AUTHORIZED RETURN # SHIPMENTS	RETURNED WITHIN	
	30 DAYS	60 DAYS
1st return	5%	8%
2nd return	8%	10%
3rd or more returns	10%	15%

HOW TO RETURN TO LRDC

- Complete the Customer Returns form (page GI-11).
- To expedite credit processing, contact our Customer Service unit for shipping instructions and Returns Material Authorization (RMA) number.

m) **YEAR END (MARCH 31) ORDER FILLING AND PRICING**

We need your order by March 17, 2001 to get it out to you by March 31, 2001, and invoice you at the 2000 list price. If we have to back order and ship after March 31, 2001 you will be invoiced at the new 2001-2002 selling price.

n) **MATERIALS RESOURCE CENTRE FOR THE VISUALLY IMPAIRED**

- Alberta Learning's Materials Resource Centre for the Visually Impaired (MRC) section of the Learning Resources Distributing Centre (LRDC) loans to Alberta schools:
 - essential alternate format materials in Braille, audiotope and large print,
 - essential kits, equipment and professional resources,
 for use by their eligible pre-school to grade 12 students who are visually impaired, in order for them to make the most effective use of their educational opportunities.
- A student is visually impaired when he/she, as determined by an educational consultant for the visually impaired, is unable to benefit from using standard printed materials because of a visual dysfunction as opposed to a learning disability, even after corrective measures have been prescribed.
- Students who are visually impaired are registered with the MRC by a qualified specialist in the field of education for the visually impaired.
- MRC provides audiotapes, which are sold by the LRDC to schools for the use of students with a print disability.

The Canadian Copyright Act is a federal law which protects intellectual property.

In 1993, Alberta's Minister of Education signed a Provincial Print License with the Canadian Reprography Collective which allows the teachers of participating school authorities and private schools to make class sets of certain materials only, in accordance with the License. If your school is part of the License, there will be a green and red poster and an Exclusions List over every photocopy machine. The terms of the License must be followed. For more information about CanCopy, visit their website at www.cancopy.com.

The License only covers print materials. Always check the copyright page at the front of a document to see whether the rights are reserved or permission to copy has been given.

Distance Learning materials have all rights reserved and therefore cannot be copied.

Any copying of computer programs must be done in accordance with the terms of the license covering that program.

Audio-visual materials being shown in a school must have a public performance license attached to the film or the school must be covered by a site license. For "Home Use Only" videos cannot be used in a school unless there is a public performance site license.

Note: Student and teacher resources for English Language Arts K-9 that were reviewed through the Western Canadian Protocol project and have received authorized status for Alberta are incorporated into this listing. The complete listing of resources approved through this review should be authorized by June 2000. The list is available on the Alberta Learning web site at <http://ednet.edc.gov.ab.ca>. It is recommended that new resources be reviewed for gradual phase-in, according to need, community appropriateness and available budget.

Alberta Learning strongly recommends that teachers read all selections in the student texts and all activities in the teacher guides prior to using them with students. Careful consideration should be given to the sensitivities of both student audience and the community.

The complete listing of resources approved through this review should be authorized by June 2000. The list is available on the Alberta Learning web site at <http://ednet.edc.gov.ab.ca>. It is recommended that new resources be reviewed for gradual phase-in, according to need, community appropriateness and available budget.

Alberta Learning strongly recommends that teachers read all selections in the student texts and all activities in the teacher guides prior to using them with students. Careful consideration should be given to the sensitivities of both the student audience and the community.

Series : The Learning Equation Math 7

Note: This resource consists of two computer disks, covering all four strands in the mathematics program (Western Canadian Protocol), a Student Refresher, Teacher's Manual, and additional disks if required for non-network (stand-alone) computer environments. The CDs present the grade 7 mathematics program in an interactive manner. In total there are 46 lessons in the complete set.

CD-ROMs

There are two CDs covering the four strands of the mathematics curriculum. In total there are 46 lessons in the complete set. The program is very interactive and uses many "explorers" which allow the student to simulate key mathematics concepts. Also included on the CDs is a glossary which students can access as a pull down menu. Students can also set the sound level to their own liking. When working within this program students can control the pace that they are moving through the material. Motivational strategies are also included. Students are required to correctly answer questions and as they do, a portion of a puzzle and jeopardy board hidden picture are revealed in the examples and the practice and problems components.

Note: This resource consists of two computer disks, covering all four strands in the mathematics program (Western Canadian Protocol), a Student Refresher, Teacher's Manual, and additional disks if required for non-network (stand-alone) computer environments. The CDs present the grade 8 mathematics program in an interactive manner. In total there are 45 lessons in the complete set.

CD-ROMs

There are two CDs covering the four strands of the mathematics curriculum. In total there are 45 lessons in the complete set. The program is very interactive and uses many "explorers" which allow the student to simulate key mathematics concepts. Also included on the CDs is a glossary which students can access as a pull down menu. Students can also set the sound level to their own liking. When working within this program students can control the pace that they are moving through the material. Motivational strategies are also included. Students are required to correctly answer questions and as they do, a portion of a puzzle and jeopardy board hidden picture are revealed in the examples and the practice and problems components.

Series : The Learning Equation Math 9

Note: This resource consists of four compact disks, one for each of the four strands in the mathematics program, a Student Refresher, Teacher's Guide and Additional disks if required. The CDs present the grade 9 mathematics program in an interactive manner. The instructional design of all lessons follow the pattern of an introduction, followed by a tutorial, examples for students, a summary, practice and problems, extra practice and a self check. Students are able to monitor their own progress through the various components of each lesson. Included is the lesson and their self check results.

CD-ROMs

There are four CDs, one for each strand of the mathematics curriculum. In total there are 56 lessons in the complete set. The program is very interactive and uses many "explorers" which allow the student to simulate mathematics concepts that involve the solution of linear equations, factoring, solving right triangles, volume and surface area, geometric transformation, the line of best fit and probability. Also included on the CDs is a glossary which students can access as a pull down menu. Students can also set the sound level to their own liking. When working within the program students can control the pace that they are moving through the material. Motivational strategies are also included. Students are required to correctly answer questions and as they do a portion of a puzzle and jeopardy board hidden picture are revealed in the examples and the practice and problems components.

d) LEARNING RESOURCES CREDIT ALLOCATION (LRCA)

LRCA Purpose

The purpose of the 2000-2001 Learning Resources Credit Allocation (LRCA):

- The 2000-2001 LRCA begins April 1, 2000 and expires March 31, 2001.
- The LRCA will automatically apply to the selling price at the time of invoicing until the full

Series : Choices Careerware

CHOICES engages high school students in an interactive, computerized process that builds self-knowledge, encourages exploration of occupations and schools, and develops career decision-making skills. Students learn what is important in finding an occupation, and are assisted with a step-by-step approach to career exploration, identifying promising career paths. The program includes online computerized versions of the 144-item Career Area Interest Checklist and the 75-item Work Preference Checklist.

The CHOICES OCCUPATIONS and EDUCATION COMPONENTS are combined into one integrated program. The Occupations Component contains over 1200 detailed NOC occupational profiles, with descriptions for another 3000. Students can search actual job listings by using CHOICES direct INTERNET connection to FEDERAL and PROVINCIAL JOB BANKS. The Educational Component complements the occupational database by providing students with up-to-date information for over 1000 post-secondary institutions and over 1300 programs of study across Canada. Students can now use the INTERNET to connect to post-secondary institutions directly from where they can apply electronically or simply select information from the web-site. CHOICES shows students how to compare their options and plan their educational future. CHOICES now includes a dynamic ELECTRONIC PORTFOLIO which provides an online STUDENT PLANNER where students can record information about activities, achievements and educational goals. Additional topics include job search, interviewing, writing a skills-based resume, making a career plan as well as dealing with challenges and barriers to employment. Extra Disks for CHOICES (either format) are available through ISM.

CHOICESCONNECT option complements the regular CHOICES program by allowing students to use eCHOICES on the Internet both at school and at home. 100 Student ID numbers are included with the program.

CHOICES CAREER FUTURES engages junior high school students in an exciting computer-based career program that invites students to learn more about themselves, begin thinking about their high school and career plans and explore hundreds of occupations. Students assess interest through a 144-item online checklist and receive a printed report that profiles their results by 12 Career Areas and shows related occupations. Current and useful information about more than 1200 occupations based on the NOC system is included. There are many topics for exploring occupations such as career areas, education and school subjects. Students find the Career Futures Electronic Portfolio and Planner a great interactive tool to enter personal information and to receive suggestions on high school courses. Students can save their Planner files on a personal disk to use with the CHOICES computer program during high school.

The CHOICES Multimedia Option, which features live action videos of occupations and career clusters, can be accessed directly while viewing CHOICES occupational information or CHOICES CAREER FUTURES on the computer screen. Over 160 careers are contained in the 4 CD-ROM package. Extra CD-ROMs are available through ISM.

The CHOICES U.S. Undergraduate File contains comprehensive and up-to-date information on more than 4000 U.S. Colleges, trade and technical schools and more than 800 undergraduate majors. Students can search the database using such topics as State, degrees offered, admission requirements, athletic programs, student housing and tuition fees.

The Career Aptitude Survey (CAS) is a valuable measure of work-related aptitudes for high school students. The Career Aptitude Survey computerized, multi-aptitude battery gives individuals a snapshot of their potential for specific occupations. The Career Aptitude Survey can be used as a stand alone or fully integrated with CHOICES3 online assessments. CAS measures the Key World of Work Aptitudes on 5 subtests including Verbal Comprehension, Numerical Ability, Visual Speed and Accuracy, Space Visualization and Numerical Reasoning. The Career Aptitude Survey can be administered for Career Exploration and/or Vocational Guidance. A qualification form is required.

Special Pricing is available through District Licensing (when all or most of the schools within a school district purchase CHOICES Careerware Programs).

Note: Alberta will participate in the Western Canadian Protocol review of grade 10 English Language Arts resources. The first phase of this grade 10 resource review will occur in March 2000; the second phase in March 2001. Grade 10 resources will be authorized for Alberta by June 2001, prior to provincial implementation of the grade 10 courses. Alberta will review and authorize resources for Grade 11 and Grade 12 courses prior to implementation in September 2002 and 2003.

It is recommended that schools continue to use presently authorized resources.

New resources, as they become available, should be previewed for gradual phase-in, according to need, community appropriateness and available budget.

CAREER AND TECHNOLOGY STUDIES

Career and Technology Studies (CTS) is an optional program designed for Alberta's secondary school students. As of September 1997, CTS replaced all junior and senior high school practical arts courses (i.e., former courses business education, home economics, industrial arts and vocational education).

As a program of choice, CTS enables junior and senior high school students to:

- investigate career options and make effective career choices
- learn to use technology (tools, processes) effectively and efficiently
- make connections with learnings developed in other subject areas
- prepare for entry into the workplace or further learning.

There are 22 strands in CTS. Each strand is comprised of a group of one-credit courses designed to support positive career and occupational opportunities for students. In general, strands relate to selected industry sectors, including goods-producing industries, such as agriculture, manufacturing and construction; and service-producing industries, such as business, health and finance. Learnings within any particular strand may involve similar tools and technologies, clientele, working environments, products and processes.

CTS is developed across levels rather than grades. The levels structure provides junior and senior high school students with multiple entry points into a common curriculum. Each strand in CTS offers introductory, intermediate and advanced level courses as described below.

Introductory (Level 1) courses help students build daily living skills and form the basis for further learning. Introductory courses are for students who have no previous experience in the strand.

Intermediate (Level 2) courses build on the competencies developed at the introductory level. They provide a broader perspective, helping students recognize the wide range of related career opportunities available within the strand.

Advanced (Level 3) courses refine expertise and help prepare students for entry into the workplace or a related post-secondary program.

Multiple-credit offerings in CTS are planned at the school/system level by combining one-credit courses that best suit the needs of students, the school/school system and the community. The curriculum structure permits schools and teachers to combine one-credit CTS courses:

- within and across strands
- within and across levels
- with other non-CTS core and optional courses.

CTS encourages the development of resource-based classrooms where a variety of appropriate, up-to-date print and non-print resources are available. Ready access to a strong resource base will enable students to learn to screen and use information appropriately, solve problems, meet specific learning needs, and develop competency in reading writing, speaking, listening and viewing.

DISTANCE LEARNING

- **DISTANCE LEARNING MATERIALS ARE MEANT TO BE USED IN ALL AND ANY EDUCATIONAL SETTING(S).**
- **ORDERING OF DISTANCE LEARNING TEACHING KEYS, LEARNING FACILITATOR'S MANUALS AND TEACHER'S GUIDES**

Correspondence Education (CE) Teaching Keys and Distance Education (DE) Learning Facilitator's Manuals (LFM's) and Teacher's Guides must be ordered on an official School Jurisdiction purchase order or they may be purchased by Teachers if they quote their Teacher Certification numbers. The LRDC reserves the right to verify Teacher Certification numbers.

- **BUYERS GUIDE ASTERISK (*)**

Most resources identified with an asterisk (*) will be replaced by a new Distance Learning course usually within 1-3 years.

- **AUTHORIZED RESOURCES - OUT OF PRINT**

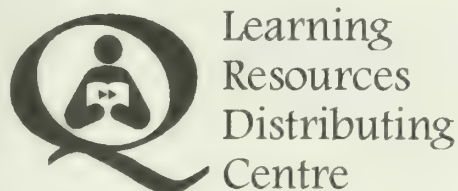

For your convenience, all out of print resources which are no longer available from the publisher will be listed in the appropriate course and grade for which they were originally authorized. These resources are **REQUIRED** to complete the course. The Alberta Distance Learning Centre (ADLC) may have limited copies which may be loaned to their Registered Students only.

- **ACCESS VIDEOCASSETTES**

ACCESS videos which are not carried by LRDC are included throughout the regular listings of the Buyers Guide. Please check the ACCESS Network Media Resource Centre catalogue for the availability status of these authorized videos. ACCESS distributed videos are eligible for purchase by Alberta customers only.

- **VIDEOCASSETTES**

Videocassettes from a local video rental outlet or the Public Library can **ONLY** be used in the home. It is a violation of Canadian Copyright Law to use "for home use only" videos in a classroom. In Canada a classroom is considered a public place and a video must have a public performance license or the school must be part of a site license from an authorized Canadian distributor who own the copyright on the video.

FOREWORD

DISTANCE LEARNING COURSE MATERIALS

1) Distance Learning Course Materials

Alberta Learning, through the Learning Technologies Branch (LTB) and Language Services Branch (LSB), develops two types of material:

a) Distance Education (DE)

Newly designed course material that incorporates modified learning strategies and the use of technology are identified as "Distance Education" resources.

b) Correspondence Education (CE)

These are the course materials that have traditionally been prepared and are identified as "Correspondence Education" courses.

LRDC also provides course materials developed by other Distance Learning resource developers.

2) Intended Target and Use

Distance Learning materials have been developed for a variety of educational applications: (1) individual students who are unable to attend school, (2) individual students who are unable to enroll in a particular course, (3) teachers to use for either an in-classroom Distance Education Program or for regular in-classroom use, (4) teacher reference material, (5) student reference material, etc. The materials have been designed in meeting individual student needs through the use of modular components as part of a student learning strategy.

3) Types of DE/CE Course Materials

a) Each Distance Education (DE) course materials generally consist of student modules, with assignment booklets, which are intended to be used by individual students.

b) Most textbooks required for DE/CE, whether for registered or non-registered students, may be ordered from the LRDC. Note: In some courses such as the Elementary subjects and Spanish 15/25 the textbooks are out of print and not available from LRDC. In these cases, to acquire the textbook the student(s) must register in the course with the ADLC (the book is then loaned to the student with a caution fee).

c) Most LFM's and Teacher's Guides contain a sample test with answers as well as the answers to the lessons; therefore, **they are available only to schools** on a purchase order or to teachers with a verifiable teaching certificate number.

d) Some Junior High DE Courses have Student Support Guides to accompany the modules. They are intended for the Registered Student or the non-classroom student. The same information is included in the LFM for the classroom students.

e) The Distance Education Program also involves a variety of non-print material. The Buyers Guide identifies a large number of the non-print materials and where you are able to access them. Most of the videos are available through the Regional and Urban Film Centres as part of an Alberta Learning negotiated Provincial License; as well, many are available through ACCESS.

4) Copyright

Alberta Learning Distance and Correspondence materials are not to be photocopied or reproduced in any form. Because of the third party provision and cost recovery nature of the production of these materials, copyright releases cannot be granted.

Series : FoolProof Security Software

FoolProof Security Software is eligible for purchase by Alberta Educational Institutions Only

FoolProof Security Software from SmartStuff Inc. is a powerful, full featured desktop solution. This cross-platform, fully network-compatible software protects the operating system and hard-drive, allows multiple security groups, locks applications and control panels, directs file saving, provides Internet access security and controls system startup, all in a one-step installation.

Alberta Learning's LRDC provincially negotiated and acquired FoolProof in a bulk purchase for Alberta schools at a substantially reduced price.

IMPORTANT ORDERING INFORMATION: To take advantage of the best possible pricing and for easy, effective implementation of the software in your schools, the LRDC and SmartStuff Software Inc, request that DISTRICT SCHOOLS WORK TOGETHER THROUGH THEIR DISTRICT TECHNOLOGY COORDINATOR (DTC) OR EQUIVALENT TO EVALUATE AND COORDINATE THE PURCHASE OF FOOLPROOF.

ONCE it is determined how many of your district school computers need to be licensed for FoolProof, the DTC should contact and/or send a purchase order to the LRDC for media and manuals and the type of licenses that are required.

FoolProof Software is sold as LICENSES to cover copyright permission for all cpu's. The district requirements should be purchased on a per platform basis, by ordering at least 1 copy of the MEDIA and the rest of the order requirements should be LICENSES or BUILDING LICENSES to cover all cpu's. MANUALS are sold separately.

EXAMPLE: A district has 110 Windows 95/98 stations in 4 of their district schools--the order to the LRDC would be for 1 or more WIN 95/98 MEDIA and 110 WIN 95/98 License Paks and the required number of Manuals. The LRDC invoice and/or pick ticket is your legal proof of purchase as there is no actual LICENSE COMING FROM THE LRDC.

ONCE your order is received from the LRDC, the DTC must contact SmartStuff to register your FoolProof acquisition 1-800-671-3999 to obtain the necessary CODES to the password-protected software and receive your certificate of purchase and licensing information.

Again, it is recommended that the DTC or equivalent coordinate the entire process as they will also be the focal contact person for SmartStuff regarding technical information as well.

AUDIOTAPE SERVICE FOR STUDENTS WITH A PRINT DISABILITY

- The Learning Resources Distributing Centre, a branch of Alberta Learning sells selected curriculum resources in audiotope format to schools for the use of students who are print-disabled.
- A student is print-disabled when s/he cannot effectively use conventional print reading materials because of a physical or a learning disability. (Alberta Learning's definition of learning disabilities is contained in the **Student Information System User's Guide Appendix E.**)
- Any Canadian school with students in grades 1 to 12 who have a print disability can use this service. Students must have an individualized program plan (IPP) that specifies the use of audiotope.
- The products available through this service are audiotapes of resources for which the Materials Resource Centre has produced an audio master with copyright clearance. The audiotapes are in normal two-track format and do not require specialized equipment to play them.
- Print disability audiotope products qualify for the 25% Learning Resource Credit Allocation (LRCA) when ordered by eligible school authorities.
- The print-disability audiotope service is provided on a cost recovery basis, priced to meet duplicating and distribution costs. Textbooks which contain between one and eight cassettes are priced at \$8.50 a cassette. Textbooks containing nine to eleven cassettes cost \$74, \$80 and \$86 respectively. Twelve or more cassettes cost \$92.
- Returns will be accepted within 4 weeks from date of receipt from LRDC. A finance and restocking charge of up to 15% will be applied.
- For more information on this service contact the MRC at:

NOTE: Student and teacher resources for English Language Arts K-9 that were reviewed through the Western Canadian Protocol project and have received authorized status for Alberta should be available by June, 2000. A current list is available on the Alberta Learning web site - <http://ednet.edc.gov.ab.ca>. It is recommended that new resources be reviewed for gradual phase-in, according to need, community appropriateness and available funding.

Alberta Learning recommends that teachers read all selections in the student texts and all activities in the teacher guides prior to using them with students. Careful consideration should be given to the sensitivities of both the student audience and the community.

Note: Alberta is participating in the Western Canadian Protocol review of English Language Arts Grade 10 resources. The first phase of this resource review occurred in March 2000; the second phase in March 2001. WCP Grade 10 resources will be reviewed for authorization for Alberta by June 2001, prior to provincial implementation of the Grade 10 course(s). Alberta will review and authorize resources for Grade 11 and Grade 12 courses prior to implementation in September 2002 and 2003. It is recommended that schools continue to use presently authorized resources as needed.

As new resources become available, they should be previewed and gradually phase-in, according to need, community appropriateness, implementation timelines and available budget.

ENGLISH LANGUAGE ARTS

NOTE: Student and teacher resources for English Language Arts K-9 that were reviewed through the Western Canadian Protocol project have received authorized status for Alberta. A current list is available on the Alberta Learning website - <http://ednet.edc.gov.ab.ca>. It is recommended that new resources be reviewed for gradual phase-in, according to need, community appropriateness and available funding.

Alberta Learning recommends that teachers read all selections in the student texts and all activities in the teacher guides prior to using them with students. Careful consideration should be given to the sensitivities of both the student audience and the community.

ENGLISH

Note: Alberta is participating in the Western Canadian Protocol review of English Language Arts Grade 10 resources. The first phase of this resource review occurred in March 2000; the second phase in March 2001. WCP Grade 10 resources will be reviewed for authorization for Alberta by June 2001, prior to provincial implementation of the Grade 10 course(s). Alberta will review and authorize resources for Grade 11 and Grade 12 courses prior to implementation in September 2002 and 2003. It is recommended that schools continue to use presently authorized resources as needed.

As new resources become available, they should be previewed and gradually phase-in, according to need, community appropriateness, implementation timelines and available budget.
